SDI-12 Specification

SDI-12 is still at version 1.3, dated September 17, 2002. At present, there are no proposals before the SDI-12 technical committee for changes to the specification.

SDI-12 is now 15 years old. The first version was released in October of 1988. The specification is widely used. One indication of this is that a search for 'SDI-12' on google.com yielded 4,280 results.

A Note From the Chairman

This has been a quiet year for the SDI-12 Support Group. No proposals have been submitted to the technical committee for changes to the specification and few questions about the standard were posted to the Support Group. It is hoped that this indicates that 1.3 of the standard is clear and concise.

Upcoming Meetings

This year the American Water Resources Association (AWRA) conference will be held in San Diego, California, on November 3-6. The SDI-12 Support Group will be holding its annual meetings at the AWRA conference. The Technical committee will meet on Monday, November 3. The general meeting will be on Tuesday, November 4.

Both meetings are open to all interested parties. An agenda for each meeting will be mailed to all Support Group members 2 weeks prior to the meeting. Please plan on attending the meetings. Your comments on SDI-12 are always welcome.

The AWRA conference will be at the Hilton San Diego Resort Hotel.

Dues

Yearly membership dues of \$200.00 are due. Normally, dues are requested in the spring. Since dues were requested last fall, it was decided to solicit for dues in the fall again this year. Your dues are essential to the continued operation of the Support Group.

Your dues help promote SDI-12 and to maintain the specification. Dues are used to support our web page, pay postage, copy documents, and to reimburse travel expenses of the Board of Directors to the annual meetings. Other than travel expenses, Board Members receive no financial compensation from the Support Group.

Receipt of your dues will be most appreciated.
